PSYC-4483. Seminar in the Psychology of Women

SOCI-2313. Deviance

This course examines the ways in which society defines and controls deviant behavior. It explores the historical and cultural contexts of deviance, the role of social norms, and the impact of social structures on deviant behavior. Key topics include crime, mental illness, and social control.

SOCI-2333. The Sociology of Chinese Women in Literature and Film.

This course explores the representation of Chinese women in literature and film, focusing on the intersection of gender, class, and culture. It examines how these representations reflect and shape societal norms and values. Key authors and films are analyzed, along with the role of women in Chinese society.

SOCI-2416. Inequality in Society

This course examines the causes and consequences of social inequality. It explores the role of economic systems, social structures, and cultural values in the perpetuation of inequality. Key topics include income inequality, social mobility, and the impact of inequality on society.

SOCI-2423. Social Problems I — Sociological Perspectives

This course introduces students to the study of social problems from a sociological perspective. It examines the historical and cultural contexts of social problems and the role of social structures in their perpetuation. Key topics include poverty, crime, and mental illness.

SOCI-2433. Social Problems II — Canadian Social Problems

This course examines social problems in the Canadian context, focusing on the role of social structures and cultural values. Key topics include poverty, crime, and mental illness. **C 2423.**
